Moana Dance Recital

by: Brooklynn McCliggott, Stevie Lott, and Alexis Variz

On Thursday January 11, was the Moana Dance Recital. The dancers from Mrs. Roger's enrichment class performed three times during the day. First, we performed for our peers, then for the elementary school. Finally, we did an evening performance for our families. Some people ask us if we are nervous before a recital and the answer is yes. Kaydence Hayden said she was so nervous that she didn't want to step on stage. Once we are on stage it gets easier because once you start dancing you forget about the audience.

Mrs. Oliver's 2nd Grade

by: Andrea Van Deventer

There is a really great second grade class at Buckeye. The teacher's name is Mrs. Oliver. I asked her some questions and this is what she said. The first question I asked her was why did you become a teacher and she said, "I have always liked working with children and helping them learn." She also went back to school to get her teaching credential when she finished college. She has been a teacher ever since. I also asked her if she had any kids and she has 3; Ellie (23), Jordi (20), and Chris (20). The last thing I ask her is where she went to school to become a

Mrs. Lauf

by: Madison Aust and Sammie Hunt

Our school library is run by Mrs. Lauf. She works very hard year round to make our library a special place. In December, Mrs. Lauf had a Book Fair. This fall she got all new furniture and carpet.

The Book Fair happens only one time of the year. The people who run the book fair is Mrs. Lauf and her husband. They have many different kinds of books for people to buy. Also, when you are in line to buy books they have bookmarks and other things.

The New Library has got new things you can sit on in the fiction room. There is a couch that looks like a long wavy bench. In the Non-Fiction room

Winter Olympics

by: Jaden Haley

Some people know that the Winter Olympics are starting on Friday, February 9, and is ending on Sunday, February 25. The Winter Olympics is going to be held in Pyeongchang, in South Korea. Some of the games are Alpine Skiing, Bobsled, Cross Country Skiing, Curling, Figure Skating, Freestyle Skiing, etc. Some of the countries competing are Canada, Italy, Cuba, Australia, USA, and Brazil. There is over 90 nations competing.

Can you identify Which country these flags are from?

President Trump is the 45th president.

President Trump

by: Jazzmin Ham and Steven Bryans

The 20th of January is Donald Trump's first anniversary for being in office. It was a very full year because he visited many countries. Donald Trump went to a lot of different places like China, Korea, Saudi Arabia, Vatican City, Israel, Italy, Belgium, Poland, Germany, France, Japan, and Vietnam. He is planning to go to a lot more places in the future.

Donald Trump is 71 and he was born on June 14th,

The Super Bowl

by: Markus Hayden

Have you ever wondered how the Super Bowl got its name? Well, AFL founder and Kansas City Chiefs owner, Lamar Hunt jokingly referred to the proposed game as the superbowl, after watching a group of kids playing super ball. The name was consistent with college "bowl" games, and became a permanent football championship moniker. I think the Steelers and the Eagles are most likely to go to the Superbowl this year. My favorite team is the Green Bay Packers, and Simon Haeckel's favorite team is the Oakland Raiders. What is your favorite team?

Green Bay Packers players are planning a celebration.

Maze Runner

By Ryan Jacoby

The latest installment in the Maze Runner series will hit theaters today. The Death Cure is the third movie in this series and critics say it will be good. This may require spoilers. So don't read this if you don't want to hear spoilers about this movie. The Maze Runner series takes place in a dystopian future which means that the world has turned into a bad place to live. The movies are based on the book series written by James Dashner. Because this movie is rated pg-13, it is scary to the people who gets scared really easily. This movie may also contain violence. The characters are Thomas, Minho, Teresa, Newt and other characters. This movie will have monsters or zombies. Most people like action figures or other toys, but this movie doesn't have any that I have found.

Martin Luther King Jr. gave speeches about civil rights.

"Faith is taking the first step, even when you don't see the whole staircase."
 -Martin Luther King Jr.

Mrs. Lauf cont. from page 1

there are chairs and round stools. There are a lot of books that you can check out from the Library. Lower grades like 3rd and lower can only check out one book at a time. Higher grades like 6th and higher can check out two books at a time. Every week you can renew them and keep reading them if you want.

The Book Fair is a cool thing to go to, and the new things you can sit on are really nice to have in the library. We are lucky to have Mrs.

Lauf as our librarian.

Buckeye Sprint

by: Alexia Narramore

The Buckeye Sprint is a competition between all the classes to see which class has the best attendance. In order to win, all the students have to be at school, on time, for five straight days. The winning classes will get a popcorn and movie party. The reason for this competition is that it is important to be at school on time. In the first five minutes of class, most teachers give out a lot of important information and if you are late you will miss out! It is important to come to school every day so that you can learn. The first round winners were Mr. Hougard's and Mrs. Webster's classes. These two classes will now be trying to win the level 2 prize which is an hour to use the new Full Speed lab. Everyone else is restarting to try to win the movie and popcorn party.

Moana continued from page 1

We agreed that it was most difficult to dance in front of our peers partly because it was our friends and partly because it was our first recital of the day.

Front Row: Shalina Dumalanta
Back Row: Kailey Zanotti, Savannah Haeckel,, Destiney Malake, Madison Barr, Madison Kirk, Trinity Miranda, and Trinity Yarnell

Dancing for the elementary school was easier because the younger students were very enthusiastic. Mrs. Rogers explained, "The younger kids are always fun to perform in front of. They always sing along and clap in all the right places." In the evening

performance we were most confident. Alexia Narramore said that she wasn't nervous and that she was excited to go on stage. One thing that helps us overcome our stage fright is our experience as dancers. Many of the members of our dance team have been dancing for many years. Mrs. Rogers tells us, "I have several girls who have been dancing with me since they were in second/third grade and now they are in 6th, 7th, or 8th." With every recital that we participate in we get more and more confident.

In addition to confidence, we also learn to use teamwork to have a successful recital. Mrs. Rogers explained it well, "It always makes me so proud to see everyone working together to make it happen." We are proud of the effort we put in to our show and we are looking forward to our next recital which will happen this Spring.

Marvel's Infinity Wars

by: Gabriel Kelly

First let me tell you what Marvel is. Marvel is a universe full of people with powers. But some are bad so the good ones made their own teams which are the Avengers, Guardians of the Galaxy, and X-Man. Thanos is the worst bad guy. If he gets all the infinity stones he could destroy the Galaxy. The infinity stones are very powerful. There are six stones and their powers are all the powers you can imagine. The people in the Avengers are Hulk, Captain America, Iron Man, Thor, Spiderman, Hawkeye, Black Widow, and Vision. The people in the Guardians of the Galaxy are Star Lord, Gamora, Rocket, Drax, and Groot. The people in X-Man are Wolverine, Rogue, Storm, Mystique, Kitty Pryde, Beast,

Characters from Marvel's Infinity Wars

Deadpool, and Colossus. Also, there are more people that we

never seen. By the way, Thanos has his own army. The army he has is partly shown in the first Avengers movie and the first Guardians of the Galaxy. Number 1 of Infinity Wars is coming in the big screen in May 4, 2018 and number 2 is in May 3, 2019 and there are probably only 2. Also Daredevil is going to the fight. You can buy the toys and the comic books. The toys are about \$20. Also the comic books are about \$10. It will be a good movie so get ready for it. For more information look up Marvel's Infinity Wars. Also Captain America looks different. On the bottom left is Captain America. So if you like Marvel or if your going see it give me a holler.

President Trump

Continued from page 2

1946 and he is the 45th president. President Trump was born in New York City and went to college in Pennsylvania. President Trump first became famous as a reality tv star on the show, "The Apprentice." He also owned the Miss Universe and Miss USA pageants. He

worked in real estate before becoming the wealthiest and oldest president. As of May, 2017 he was the 544th richest person in the world.

Mrs. Oliver

continued from page 1

teacher and she said, "I went to CSU-Chico." Her major was Liberal studies and Spanish. She also went to National University to get her teaching credential. Well I kinda lied, that was not the last question. The last question I asked Mrs. Oliver was what she likes about Buckeye and she said she loves our school and she likes seeing the students and her colleagues everyday. I also asked a few of her students what their favorite part of second grade was and Alana said her favorite part is the morning meeting. Daphne's favorite part is math, reading, and Lexia. Kayla's favorite part is Mrs. Oliver and math. Kristina says her favorite part is the math. Mrs. Oliver is always happy and encouraging and she is willing to help anyone who needs it.
